## **Spelling**

Clarification of Spelling Procedure Rule 2m: “When the students are reduced to two, the elimination procedure changes, but not before the completion of the current round.”

- The intent of the rule change is to ensure that the remaining competitors have correctly spelled the same number of words as eliminated competitors before changing the procedure, so the current round must be completed before the procedure changes. If, at the completion of a round, only one competitor remains who has not misspelled a word, that competitor is the first place winner and the two-person elimination procedure outlined in rule m does not occur. The second- and third-place winners are awarded in the order that they were eliminated from the contest. If, at the completion of a round, only two competitors remain, the elimination procedure outlined in rule m is employed to finish the contest and third place is awarded to the last competitor eliminated in the previous round. If, at the conclusion of a round, all competitors have been eliminated, the contest must resume as things were at the beginning of that round—all competitors who were still in the contest at the beginning of that round are restored and a new round begins with those competitors spelling in the original order.
- The AACS office will randomly assign the order in which spellers are to compete and give that order to the spelling master.
