# Statement of Faith

The doctrinal statement of the American Association of Christian Schools is as follows:

We believe that the Bible, both the Old and New Testaments, was verbally inspired of God and is inerrant and is our only rule in matters of faith and practice. We believe in creation, not evolution; that man was created by the direct act of God and in the image of God. We believe that Adam and Eve, in yielding to the temptation of Satan, became fallen creatures. We believe that all men are born in sin. We believe in the Incarnation, the Virgin Birth, and the Deity of our Lord and Savior, Jesus Christ. We believe in the vicarious and substitutional atonement for the sins of mankind by the shedding of His blood on the cross. We believe in the resurrection of His body from the tomb, His ascension to Heaven, and that He is now our Advocate. We believe that He is personally coming again. We believe in His power to save men from sin. We believe in the necessity of the New Birth, and that this New Birth is through the regeneration of the Holy Spirit. We believe that salvation is by grace through faith, plus nothing minus nothing, in the atoning blood of our Lord and Savior, Jesus Christ.

We believe that this statement of faith is basic for Christian fellowship and that all born-again men and women who sincerely accept it and are separated from the world of apostasy and sin can and should live together in peace, and that it is their Christian duty to promote harmony among the Believers.

We further believe in the Biblical doctrine of ecclesiastical separation, and therefore believe that churches and Christian schools should not be associated with, members of, or in accord with organizations or movements such as the World Council of Churches, the National Council of Churches, the modern charismatic movement, or the ecumenical movement.

# Purpose and Profile

## Purpose

The general purpose and objectives of the American Association of Christian Schools shall be the establishment, development, advancement, promotion, and protection of Christian school state and regional associations, Christian schools in states without Christian school associations, and Christian education in America and worldwide.

## Profile

### **An Association of State Associations**

The heart of the AACS is the federation of state and regional associations who work in harmony with the national association in providing member services. AACS is unique in that it has the strength of a national coalition of Bible-believing Christian schools with the practicality of locally controlled state associations.

### **Active Legislatively**

The AACS has historically been a voice for Christian education in Washington, D.C. Today that purpose is carried on with even greater vigor. Protecting member schools from government entanglement, as well as promoting religious freedom, Christian education, and family values, continues to be the focus of the AACS legislative effort.

### **Committed to “Excellence in Education”**

High-quality Christian education is a primary goal of AACS member schools. Outstanding educational programs are offered by AACS to help member schools enrich their academic programs. These include school accreditation, teacher certification, achievement testing, and others. The AACS is dedicated to quality, innovation, and excellence in education.

### **Separated Morally and Theologically**

The AACS Doctrinal Statement is founded on the Word of God. Schools which affirm the doctrinal position and pay the necessary dues are eligible for membership. Membership in the AACS in no way infringes upon the autonomy of member schools.

*Membership will not be afforded to those associated with, members of, or in accord with the World Council of Churches, the National Council of Churches, the modern charismatic movement, or the ecumenical movement.*

# Achievement Testing

*Your school can receive valuable discounts on test materials when you participate in this nationally standardized achievement and school ability testing program.*

---

## Iowa Achievement Testing Program

### Consider These Values In Achievement Testing:

- Testing can help to verify the quality of your school's academic program.
- Testing can provide information on annual student and class progress.
- Testing results are a good public relations tool.
- Testing can help to determine if students are working at their level of ability.
- Testing can be valuable in class grouping and placement.

AACS member schools receive significant discounts on test materials, and you may purchase the exact quantities needed. No minimum purchase amounts are required as is usually the case in individual school orders.

If your school is not already participating in the AACS achievement testing program, give consideration to testing through the AACS program. You will find the value far outweighs the cost.

For more information, email [testing@acs.org](mailto:testing@acs.org) or call 423-629-4280.

# School Accreditation

*This program promotes standards of excellence and is one means of improving the quality of programs offered by member schools.*

---

The American Association of Christian Schools offers its member schools one of the finest, most comprehensive accreditation programs available. Accreditation is a means whereby the AACCS can assist its member schools in the building of stronger Christian schools. Accreditation is voluntary; it is not an attempt to license or regulate. In order to be accredited, a school must state a philosophy of education that is in conformity with biblical standards, demonstrate that its program is in agreement with that philosophy, and meet certain standards that are generally acceptable to Christian educators. A school voluntarily enters accreditation and may withdraw at any time.

The concepts of being approved, seeking counsel, and performing a self-analysis are biblical. Such verses as Romans 12:17; 2 Corinthians 8:21; Romans 14:8, 18; Philippians 1:10; James 1:22–25; Proverbs 15:22; and others speak of these concepts. The Bible exhorts Christians to be self-governed with the aid of the Holy Spirit, and to seek wise counselors as they endeavor to gain in wisdom and stature. Counselors must be full of spiritual wisdom in order to give proper biblical counsel. The process of accreditation strengthens a school through self-analysis and then provides the added benefit of wise counselors in the form of an evaluation committee.

Every AACCS member school is encouraged to consider participating in the AACCS Accreditation Program.

# Teacher Certification

*The AACS Professional Employee Certification Program provides objective standards for evaluating and recognizing the preparation of current and prospective professional employees.*

---

The Christian school, if it is to maintain a reputation for academic excellence, must employ the services of teachers and administrators who are academically qualified to assume their teaching and administrative responsibilities. Proper professional training is a prerequisite to quality education.

Academic preparedness, as important as it is, does not take the place of, nor can it be a substitute for, the spiritual requirements of Christian school teachers and administrators. A balance of spiritual insight, dedication, and love, combined with the academic preparedness to meet the demands of the classroom, is an essential ingredient for excellence in the Christian school.

Teaching certificates are issued for the following categories:

- Preschool
- Kindergarten
- Elementary
- Secondary
- All-Level
- Special Education
- Specialist
- Administrator

# TEACHERS *for* TOMORROW

*Inspiring the Next Generation of Educators*

We all have a teacher, a coach or a guidance counselor we can point to as a person who loved their work and their students. Be that person for teens at your school by partnering with BJU to introduce students to the ministry of teaching through hands-on learning opportunities, guided online curriculum and mentoring.

# National Competition

*AACS National Competition is the platform for training tomorrow's leaders to achieve excellence in ministry.*

---

Each year state and regional high school winners compete for national honors. Competition is held in 73 categories in five major areas: Bible, Academics, Music, Speech, and Art. First-, second-, and third-place winners are recognized in the closing ceremony of the National Competition. The AACS Cup of Excellence is presented to the state association that accumulates the most points (three points for each first place, two points for each second place, and one point for each third place).

One of the highlights is the preaching by a guest speaker in the services; these are times when many students make spiritual decisions that will impact their lives for years to come. Through AACS National Competition approximately 2,000 young people strive for personal excellence while developing stronger Christian character in their lives. The purpose of the AACS National Competition in the various stages of guided preparation and practice is for students to receive a professional critique while being carefully nurtured for ministry.

This event is the largest event sponsored by the American Association of Christian Schools. Schools desiring to participate on the state level should contact their state association office for complete details.

# Youth Legislative Training Conference

*The strength of our Christian faith tomorrow rests  
with the students we are preparing today.*

---

## **Preparing Students for Citizenship Involvement**

Each summer, AACS hosts the Youth Legislative Training Conference in Washington, D.C. This one-week conference gives high school students and recent graduates from AACS member schools the opportunity to experience the American political system through the prism of a biblical worldview.

The conference is designed to give students opportunities which will enhance their level of understanding of the American political system, as well as deepen their commitment to biblical integrity and character in leadership.

During the week, the students participate in a mock Senate. They meet with their Congressmen and attend a congressional briefing designed just for them. They glean important lessons from a wide variety of speakers who give them practical insight into the workings of Washington. The students also tour significant historical sites in the area.

As important as it is for Christian teens to understand the political process, it is more significant that they understand the importance of character in every role of life, specifically leadership roles. By attending the conference, each student has the rare opportunity to interact with men and women in the political arena who are known as leaders of character.

For more information regarding the Youth Legislative Training Conference, please contact the AACS Legislative Office in Washington, D.C., at (202) 547-2991.
