

## Affordable property and liability insurance

AMERICAN ASSOCIATION OF CHRISTIAN SCHOOLS

PROTECTING  
THE GREATER  
GOOD.

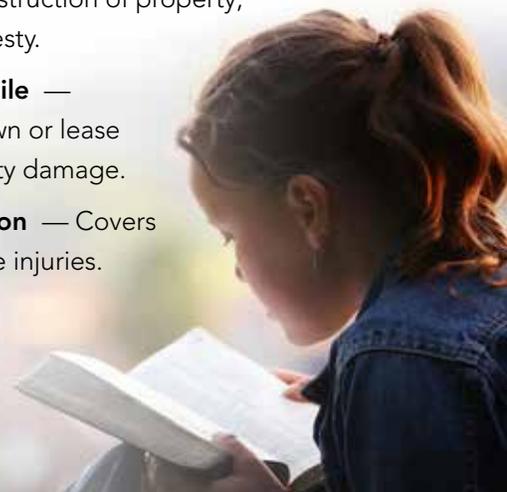

## Why AACCS members entrust Church Mutual to protect their property and other financial assets

Church Mutual is the official underwriter of the Property and Liability Insurance Program offered exclusively to AACCS member schools. Because Church Mutual has been insuring America's faith-based communities since 1897, we know and understand the unique exposures Christian schools face. This group insurance program offers a group discount (where allowed by state law) and the opportunity to earn a safety dividend. Plus you'll benefit from outstanding specialized property and liability coverages and risk control services to help you reduce the risks of property damage or injuries at your schools. In addition, our risk consultants will develop a detailed, on-site risk analysis to assess your needs and scope of activities at no charge, and then tailor a coverage plan to fit your organization.

### KEY COVERAGES

- ▲ **Umbrella liability** — Offers higher limits for liability exposures.
- ▲ **Crime** — Covers theft of money and securities; theft, disappearance and destruction of property; and employee dishonesty.

### PROVEN RISK CONTROL

Church Mutual's Risk Control Department is dedicated to helping AACCS members protect their people and property. Our risk control services include an expert team of cost estimating individuals, on-site safety hazard consulting, ergonomic evaluations, on-site presentations on safety issues and emergency preparedness and a Consulting and Research Call Center to respond to safety questions.

You also will have free access to safety videos, checklists, a Playground Safety Handbook, and online programs designed to help you prevent injuries and property damage. In addition, we provide *Risk Reporter* (our quarterly safety newsletter for educational facilities) and a variety of sample consent forms and other useful documents. Many members also appreciate using the Trusted Employees web-based background screening program we offer at a reduced price — to help screen employees and volunteers more efficiently and effectively.
